

**REMARKS**

Claims 6-15 are now present in the case. Consideration of the application in view of the above amendment and the following remarks is respectfully requested.

In the Office Action mailed July 27, 2004, the Examiner restricted examination to one of the following inventions:

- I. Claims 6-7 drawn to a method of processing instructions;
- II. Claims 8-13 drawn to a method of addressing memory; and
- III. Claims 14-15 drawn to a method of generating a meta address.

Applicant elects the claims of species II directed toward a method of addressing memory.

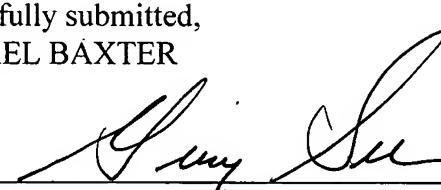

An applicant has also added new claims 16 and 17 drawn to a method of addressing memory that includes generating a meta address.

Applicant hereby withdraws, without prejudice, claims 6-7.

In view of the foregoing arguments, Applicant respectfully submits that the claims 8-17 presently in this case are now in condition for allowance. Reconsideration and prompt favorable action are therefore solicited.

Respectfully submitted,  
MICHAEL BAXTER
